

# Study to improve arm function after stroke

A commonly used drug might also be useful to improve arm function after stroke. You might be eligible for this study if you have had a stroke between 3 months and 2 years ago, and still have arm weakness. Visits are at the University of California, Irvine.

If interested, contact Steven C. Cramer, MD, via

Phone: (949) 824-8748

Email: [stroke@uci.edu](mailto:stroke@uci.edu)

and ask about the “*Arm Function Therapy Study*”

Participation involves 6 visits to Irvine and some therapy in your home. There is no charge and no payment for participation. We can help with small expenses such as occasional transport to UC Irvine or obtaining copies of medical records. Thank you--Steven C. Cramer, MD; UC Irvine, Dept. Neurology
